At the age of 29 I work now successfully in my 7<sup>th</sup> year as a Golf-Teacher.  
As Sweden has always been my favorite country, I decided to move there by the end of 2020.

### What I can offer:

- worked with national leading amateurs
- have been to several National-Championships as a teacher
- have experience with Tour-Professionals
- use of Scope System, Flightscope and Trackman over the years
- have my own Trackman 4 (Indoor and Outdoor)
- teach more than 100 beginners each year
- B-license (like HTU)

### What I look for:

- a course which is open all year round
- great team and friendly environment
- self-employment is an option
- a well equipped facility for instruction
- located near Stockholm (preferred)

My swedish is good, but not perfectly fluent. It will improve rapidly once I live there.  
I am very motivated to work in Sweden and will solve the upcoming tasks.

Du får gärna skriva på svenska.
